

See it,
record it,
take it with you.

SceneCatcher: the latest Bullard innovation.

The flexibility and technology
law enforcement officers
have asked for is finally here:
Bullard SceneCatcher.™

Now, law enforcement officers will
be able to capture 60 minutes of
video, as well as 300 still images
from their Bullard TacSightThermal
Imager. Digital images and videos
download easily through a USB
connection to a computer for
use in analysis and records of
evidence.

SceneCatcher™ is Bullard's latest response to requests we've heard from law enforcement officers in the field. When entering a scene, a camera user will now be able to take both snapshots and video of the images they see on their Bullard TacSight Thermal Imager. This enables a greater capability not only in surveillance and management of a situation, but also for study back at the station. Videos and images are time and date stamped to assist in your investigations. The unit mounts easily on Bullard TacSight series thermal imagers, and is available with and without transmitter capability.

SceneCatcher Technical Specifications

Video format: NTSC
 Video export: AVI encoding
 Video image size: 320 x 240
 Video record time: 60 minutes

Still image export: JPEG
 Still image resolution: 320 x 240
 Still image capacity: 300 images
 PC connection: USB
 Camera connection: 5-pin

MobileLink

Mobile Command Center

SceneCatcher is housed in a handle, which can also include a transmitter. With the optional two-channel transmitter, users can send images and video from a single camera and transmit to one or more receiving devices, such as the Bullard MobileLink handheld receiver or the Mobile Command Center.

Already using a Bullard transmitter? You can upgrade your transmitter handle to include the SceneCatcher.

Transmitter Technical Specifications

Mounting: External
 Antenna Type: Dipole
 Power Output: 750 mW
 Power Consumption: 2.6 W
 Nominal Range: 600 feet (through typical frame construction)

Signal Type: Analog
 Transmitting Frequency: 2.4 GHz
 Power Supply: Internal
 FCC License: Part 90
